ABOUT ME

I am a Frontend Software Developer. I'm passionate about software technology and applying it to solve business problems. I enjoy implementing light and scalable solutions using the best Agile practices for the satisfaction I get by overcoming challenges. I am very flexible with different technologies, so I can learn and adapt to new environments quickly and build solutions around them.

PROFESSIONAL AND TECHNICAL SKILLS

- Over 3 years of React, Next, Redux, JavaScript, TypeScript, Angular, Node.js, RESTful APIs and UI development experience
- Over 4 years of demonstrated experience using vanilla javascript, HTML5, semantic markup and css3
- Experience with legacy React applications using webpack and class-based components
- Detail-oriented when implementing interactive interfaces by translating design mockups/wireframes (Figma, Adobe Xd) and building reusable codes and libraries for future use
- Strong UI development experience with Material UI, Tailwind, Styled Components
- Experience with back-end technologies like NodeJS, Rest APIs, Express, JWT and databases (PostgreSQL, MySQL MongoDB)
- Ability to understand business requirements and translate them into technical requirements.
- Exposure to cloud technologies like Azure DevOps, CI/CD pipelines tools like Docker, GitHub Actions
- Experience with Agile teams in collaborative environments where effective communication is a hard requirement

EXPERIENCE AND EMPLOYMENT HISTORY

DECAGON (_Frontend Developer_**)**

JANUARY 2020 **-** PRESENT

- Extensive interaction with the client on requirement gathering and estimation with JIRA for full-featured human resources and employee performance management application; handled front-end architecture design; oversaw implementation using React and TypeScript.
- Built reusable components and front-end libraries for future use, which increased performance and speed by over 80%
- Worked with the product team to formulate a delivery strategy for a progress tracker web application for a stealth mode start-up and delivered the application using React, TypeScript, and Styled components while considering accessibility
- Migrated a mini bank application using Node, Express and Typescript**,** React from making use of REST APIs to GraphQL. This improved the run-time of the server by over 70%.
  Technologies used: _JavaScript, TypeScript, React, React Hooks, REST API, CSS, NodeJS, GraphQl._

Polaris (_THZ Creative Solutions_**)**
(Frontend Developer)

SEPTEMBER 2022 - NOVEMBER 2022

Worked on Mynda. Mynda is an online marketplace that will be hosted on the cloud and accessible to virtually everyone with a   smart device and connected to the internet. The platform will have housemaid agents registered on it who would in turn register the housemaids and undergo a know your customer due diligence process associated with National Identity Number, BVN, Life Photo, Geolocation, Police clearance, and guarantor to ascertain their identity.
The public is open to view details of housemaids listed based on location, tribe, previous place of work, sex, reviews from previous employers regarding the maid, and as well as reviews from agents regarding how the previous employers handled the maid before requesting their service.

Technologies: Figma, React.Js, HTML and CSS, C#, POSTMAN

.

PROJECTS HIGHLIGHT

- **Decagon fellowship program portal - Decagon Nig. https://fellowship.decagonhq.dev/engineer/login**

- **Shopping cart. https://fanciful-tartufo-195230.netlify.app**

- **Ecopal. https://ecopal.herokuapp.com**

- **Mynda**

TECHNICAL SKILLS

Languages: Javascript, Typescript, HTML/CSS, SQL, SASS/SCSS
Framework and Libraries: Express.JS, Node.JS, React.JS, Angular.JS, Material UI, Next.JS
Project Management Tools: Jira, Github, Microsoft Azure
Others: npm, yarn, Docker, CI/CD, Postman

PERSONAL SKILLS

- Agile and Leadership skill
- Strong team work ethics
- Communication skills
- Creative, Innovation and Problem Solving
- Graphic Design
- Proactive and team player who can deliver in a high pressure demanding environment
- Idea Generator
- Pair Programming
- Strong Verbal and Interpersonal Skills
- Self-motivated
- Collaborative

AWARDS AND CERTIFICATIONS

- Scrum Fundamentals Certified   -   April, 2022
- EF Standard English Test   -   April, 2022
- CISCO Introduction to Blockchain -   Jan, 2023

EDUCATION

Abubakar Tafawa Balewa University (ATBU)
Electrical/Electronic Engineering Technology - 2015
